MiroCam® Receiver MR2000

MiroCam® Receiver MR2000, the latest advancement and most user friendly hardware for MiroCam® Capsule Endoscopy

WIDE LCD Screen for RTV

Light and compact design with wide LCD screen not only benefits patients but also enables physicians to easily check capsule location real-time. Images can be captured on the screen during the entire procedure.

SMART Procedure Guidance

For each step, intuitive reminders are displayed to help users properly operate the procedure. A device self-check will be automatically progressed to prevent both technical and user errors.

EFFICEINT Data-handling System

With much faster and more efficient algorithm, MiroCam®Receiver MR2000 can handle large image data that are transferred from a higher frame rate capsule.
